

SIXTY
PURE ANTARCTIC SALMON
SOUTH
BY **Nova Austral**

Imagine a place so isolated it is impeccably pristine. A place whose waters are as pure as they are icy cold. Where conditions are perfected, protected and preserved, just as nature intended.

This is where we raise our salmon—in the majestic, untouched territory of Antarctic waters. These glacial conditions nurture salmon unlike any other. Sustainably raised, all natural, and free of antibiotics and pesticides.

It's quality you can see. It's difference you can taste. It's freshness you can feel good about.

**Welcome to a new world of sustainable farming.
Welcome to a new way of raising salmon.
Welcome to the extreme south.**

Sixty South. Pure Antarctic.

FRESH FROM ANTARCTIC WATERS

Raised in the rare and pristine, icy cold waters from the Antarctic.

SUSTAINABLE, HEALTHY SALMON

Extreme south location provides sustainable conditions for raising antibiotic and pesticide-free salmon, at the highest standards.

RICH FLAVOR PROFILE

A unique origin creates superior quality and flavor—smooth, rich and silky texture.

RAISED ON NATURE'S TERMS

All natural, never treated, responsibly farm-raised salmon in conditions as nature intended.
